Dear Parents,

Welcome to the Shurley Method—English truly made easy! It is with much excitement that we share some of the unique features that make the Shurley Method so successful. Because of your concern as a parent to help your child, this booklet has been designed for you.

With this Parent Help Booklet, our goal is to give you, the parent, a basic understanding of the Shurley Method. We hope it makes your job of helping and encouraging your child at home a little easier. This booklet will provide you with samples of the terminology and style of teaching that is used at school so that you can follow your child’s progress at home.

The information in this booklet is divided into the sections explained below.

**The Introduction Section:** The first three pages in the Parent Help Booklet will give you an understanding of why the Shurley Method works, outlining the key features and main elements taught in each grade level.

**The Jingle Section:** English definitions are taught in jingle form. The rhythm of the jingles is a fantastic learning tool that helps students learn and retain difficult English concepts. Students love reciting the jingles and are taught how to use the definition jingles to help analyze the structure of sentences. The Jingle Section will provide all the jingles your child will learn during the school year.

**The Question & Answer Flow Section:** Students are taught how to ask the right questions to find the role each word plays in the sentence being analyzed. This technique is called a Question & Answer Flow or the Q&A Flow. The Q&A Flow is done in a rhythmic, enthusiastic manner, enabling children to actively participate in their learning. Children’s participation builds their confidence, and they are able to solve difficult sentence structure without constant assistance. The Q&A Flow is a stepping stone to higher level thinking skills because children will be stimulated to learn and use their own thought processes to answer questions about words and sentences. Several Q&A Flows and sample teaching scripts to introduce new concepts are provided in this section.

**Practice sheets, for the sentences in this booklet, are available in a separate file that can be downloaded.**

**The Practice and Improved Sentence Section:** Students are taught how to write and expand sentences correctly by writing practice sentences from grammar labels. Students then learn to improve their sentences by using synonyms, antonyms, or other word changes to improve different parts of the practice sentence. Writing improved sentences will help students to mentally make better word choices as they write because their writing ability and their vocabulary increase.

**The Writing Section:** The Shurley Method teaches the foundation of sentence composition: how to write a sentence, how to improve and expand a sentence, and then how to combine sentences into paragraphs. Since the Shurley Method teaches the parts of a sentence within the whole, students always have a clear picture of what it takes to write complete and accurate sentences, resulting in well-written paragraphs, essays, reports, and letters. Some writing samples and outlines that demonstrate different kinds of writing are provided in this section. Since students are taught to edit their writing, the editing checklist is also provided on page 21.

Brenda Shurley
Introduction Section

The Problem:
English. The very mention of this school subject brings shudders and moans from too many students. Why this attitude?

There are two reasons. First, many students hate and dread English because they are not successful in learning the concepts and rules they are taught. Second, a majority of students do not understand how to use the rules and concepts in their everyday speaking and writing. Since all students are required to take English for twelve years, it is essential that educators find a solution to this nationwide problem!

The Solution:
The Shurley Method is the answer. This program provides students with two important ingredients for success: a love of the English language and the ability to use the English language correctly with ease and confidence.

Why the Shurley Method?
For over twenty-five years, actual classroom situations and the learning needs of students have been used to develop this exciting English program. The features listed below show the advantages of the Shurley Method.

- **Never Teaches Isolated Concepts**
  A concrete set of questions about each word in a sentence is used to teach students how all the parts of a sentence fit together. Students have a clear picture of how to write complete sentences.

- **Uses All Learning Styles**
  Students are constantly exposed to “see it, hear it, say it, do it” activities that meet the visual, auditory, and kinesthetic learning styles of students.

- **Interactively Teaches During the Class Period**
  The Shurley Method uses repetition, fun, and student-teacher interaction to help students learn difficult English skills. The teacher models each new step in the Shurley Method for the students. Then, the students actively participate with the teacher as the steps are practiced.

- **Uses Repetition to Attain Mastery**
  The Shurley Method provides enough repetition for students to master each concept taught. Lessons include daily practice of old skills while new skills are being added.

- **Provides Tools for Writing Excellence**
  The students are taught how to merge a strong skill foundation with the writing process. As a result, teachers can spend less time going over beginning grammar and editing skills and more time introducing and enhancing advanced grammar and writing skills.

- **Promotes Higher Order Thinking Skills**
  Students use their grammar and writing skills automatically with dependable results. This leads to higher level thinking skills because the students are stimulated to learn and use their own thought processes to solve difficult language problems.

- **Leads to Success and Improved Self-Esteem**
  The most important effect of the Shurley Method on students may not be their increased grasp of language and improved grammar and writing skills. Instead, the greatest impact may be the students’ heightened self-confidence and self-esteem. Not only do the students gain confidence in English, but they carry this improved attitude into other subject areas as well.
Introduction Section

Special Features

All the special features of the Shurley Method give students the concrete steps necessary to relate a definition to a concept, a concept to a skill practice, and a skill practice to writing and editing. Competent writing begins with sentence structure, expands to paragraphs, and results in well-written essays, reports, letters, and general writing enjoyment.

A bonus feature of this unique program is the consistency of the terminology and skill practice exercises for all levels. In order to achieve this consistency for students, teachers at every level are given the same step-by-step teaching method for introducing and practicing concepts. This consistent teaching method helps students gain a solid foundation as additional skills are added at each subsequent level.

Jingles

The first element of the Shurley Method is the use of jingles. Students begin learning the parts of speech by reciting definitions in jingle form. These rhythmic definitions are chanted or sung by the class to help them initially remember the role of each part of speech.

Question and Answer Flow

In the Question and Answer Flow, an oral series of questions and answers determines the role each word plays in the sentence being analyzed. This is a classroom activity in which the teacher either leads, or supervises while a student leads. In this way, students are able to completely analyze the sentence. The Q&A flow includes questions for every word in the sentence. The difficulty level increases by grade level during the course of the year.

</tr>
<tr>

</tr>
</tbody>
</table>

The effectiveness of the Question and Answer Flow as a teaching technique is based upon several key elements:

♦ Each part of speech is analyzed within the context of the whole sentence. Parts of speech are never studied in isolated units.

♦ Once a concept is introduced, it is never left behind. As each concept is learned, it is repeatedly applied in daily exercises throughout the year.

♦ Much of the students’ work is done in a group environment. This approach provides immediate feedback to the students in a non-threatening way. Students are able to learn, using not only visual but also auditory and kinesthetic learning styles. When students see, hear, and say their answers, retention increases.
Introduction Section

Sentence Building

(Level 5 teaches the eight parts of speech: noun, verb, adverb, adjective, preposition, pronoun, conjunction, and interjection.)

The Shurley Method uses grammar to teach students the structure and design of their written language. Grammar provides students with a writing vocabulary, and it is the foundation of sentence composition. Students learn to write good sentences by using the basic sentence labels they are learning in grammar (A, Adj, SN, V, Adv) and by adding other labels as new concepts are taught. These sentences, written from grammar labels, are called Practice Sentences. Students then learn to improve and expand their sentences by using synonyms, antonyms, or complete word changes to improve different parts of the practice sentence.

</tr>
<tr>

<tr>

</tbody>

The Writing Process

In the writing process, students are taught to write for different purposes. After they know the purpose of their writing, students are taught to organize their writing according to its purpose, to keep focused on the topic, to revise and edit their rough drafts, and to write a final paper.

As students progress in the Shurley Method year after year, they become better able to apply their knowledge of skills to editing and writing. As a result, the teacher can then spend less time laying basic foundations and more time introducing advanced writing concepts.

Paragraph Construction

After students learn to construct a variety of good basic sentences, they learn to write different kinds of paragraphs. In the three-point expository paragraph, students easily learn how to write a paragraph by using topic sentences, supporting sentences, and concluding sentences. Three-point paragraphs make it easy for students to learn how to organize the parts of a paragraph and to develop these parts into effective paragraph writing. (An example of paragraph writing is provided on page 20. Guidelines for Writing paragraphs and essays are provided on page 21.)

Shurley Method Patterns

The pattern of a sentence is the order of its main parts. The patterns used at this level are listed below. (The Shurley Method abbreviations are listed on Page 7.)

The subject-noun and verb are the main parts of a Pattern 1 sentence.

(SN V)

The subject-noun, verb-transitive, and direct object are the main parts of a Pattern 2 sentence.

(SN V-t DO)

The subject-noun, verb-transitive, indirect object, and direct object are the main parts of a Pattern 3 sentence.

(SN V-t IO DO)

The subject-noun, linking verb, and predicate noun are the main parts of a Pattern 4 sentence.

(SN LV PrN)

The subject-noun, linking verb, and predicate adjective are the main parts of a Pattern 5 sentence.

   Starting with an A.
   (Fast)
   aboard, about, above,
   across, after, against,
   (Slow)
   along, among, around, at.

2. **Preposition, Preposition**
   Starting with a B.
   (Fast)
   before, behind, below,
   beneath, beside, between,
   (Slow)
   beyond, but, by.

3. **Preposition, Preposition**
   Starting with a D.
   down (slow & long),
   during (snappy).

4. **Preposition, Preposition**
   Don’t go away,
   Go to the middle
   And see what we say.
   E-F-I and L-N-O
   except, for, from,
   in, inside, into,
   like,
   near, of, off,
   on, out, outside, over.

5. **Preposition, Preposition**
   Almost through.
   Start with P and end with W.
   past, since, through,
   throughout, to, toward,
   under, underneath,
   until, up, upon,
   with, within, without.

6. **Preposition, Preposition**
   Easy as can be.
   We’re all finished,
   And aren’t you pleased?
   We’ve just recited
   All 49 of these.

Jingle 9: Pronoun

This little pronoun,
Floating around,
Takes the place of a little old noun
With a knick knack, paddy wack
These are English rules.
Isn’t language fun and cool?

Jingle 10: Subject Pronoun

There are seven subject pronouns
That are easy as can be:
I and we,
He and she,
It and they and you.

Jingle 11: Possessive Pronoun

There are seven possessive pronouns
That are easy as can be:
My and our,
His and her,
Its and their and your.

Jingle 13: The Eight Parts of Speech Jingle

Want to know how to write?
Use the eight parts of speech - They’re dynamite!

**Nouns, Verbs, and Pronouns** - They rule!
They’re called the NVP’s, and they’re really cool!
The Double A’s are on the move;
Adjectives and Adverbs help you groove!
Next come the PIC’s, and then we’re done!
The PIC’s are Preposition, Interjection, and Conjunction!

All together now, the eight parts of speech, abbreviations please:
NVP, AA, PIC

Jingle 13: The 23 Helping Verbs Of the Mean, Lean Verb Machine Jingle

These 23 helping verbs will be on my test.
I gotta remember them so I can do my best.
I’ll start out with 8 and finish with 15;
Just call me the mean, lean verb machine.

There are the 8 **be** verbs that are easy as can be:
am, is, are --was and were,
am, is, are --was and were,
am, is, are --was and were,
be, being, and been.
All together now, the 8 **be** verbs:
am, is are -- was and were -- be, being, and been,
am, is are -- was and were -- be, being, and been.

There’re 23 helping verbs, and I’ve recited only 8.
That leaves fifteen more that I must relate:
has, have, and had --do, does, and did,
has, have, and had --do, does, and did,
might, must, may --must, might, must, may.

Knowing these verbs will save my grade:
can and could --would and should,
can and could --would and should,
shall and will,
shall and will,

In record time I did this drill.
I’m the mean, lean verb machine - STILL!

<table>
<thead>
<tr>
<th>General Q &amp; A Flow Guide #1 for Pattern 1 Sentences</th>
</tr>
</thead>
</table>

**To find the subject:**
1. Read the sentence: *The big dog barked loudly at the fox.*
2. To find the subject, ask the subject question “who” or “what” and read the rest of the sentence. (Ask the subject question “who” if the sentence is about people. Ask the subject question “what” if the sentence is not about people.) Label the subject with an “SN” abbreviation.
   - What barked loudly at the fox? Dog - SN (say “subject noun” not “SN”)

**To find the verb:**
1. Make sure you have marked the subject with the “SN” abbreviation.
2. To find the verb, ask the verb question “what is being said about” and then say the subject. Next, say the subject and verb together to make sure they make sense together. Label the verb with a “V” abbreviation.
   - What is being said about dog? Dog barked - V (say “verb” not “V”)

**To find the adverb:**
1. An adverb modifies a verb, adjective, or another adverb. Go to the verb first and ask an adverb question.
2. To find an adverb, say the verb and ask one of the adverb questions “how, when, or where.” Label the adverb with an “Adv” abbreviation.
   - Barked how? loudly - Adv (say “adverb” not “Adv”)

**To find the preposition and the object of the preposition:**
1. A preposition is a connecting word. It connects a noun or pronoun to the rest of the sentence.
2. An object of the preposition is a noun or pronoun after the preposition in a sentence.
3. A preposition must always have a noun or pronoun (an object of the preposition) after it.
4. To find a preposition, say the preposition word and ask the question what or whom to find the object of the preposition. Label the preposition with a “P” abbreviation and label the object of the preposition with an “OP” abbreviation.
   - At – P (say “preposition” not “P”)
   - At what? fox - OP (say “object of the preposition” not “OP”)

**To find the article adjective:**
1. There are three article adjectives: a, an, the. Article adjectives are also called noun markers because they tell that a noun is close by. Article adjectives must be memorized.
2. To find the article adjective, just memorize a, an, and the as article adjectives and say “article adjective” each time you see one of them in a sentence. Label the article adjective with an “A” abbreviation.
   - The - A (say “article adjective” not “A”)

**To find the adjective:**
1. An adjective modifies a noun or a pronoun.
2. To find an adjective, go to a noun or pronoun and ask one of the adjective questions: “what kind, which one, or how many.” Label the adjective with an “Adj” abbreviation.
   - What kind of dog? big - Adj (say “adjective” not “Adj”)

**The Rest of the Q & A Flow**
1. The – A
2. SN V P1 check. (The pattern goes in the blank. The check is to identify the other parts of the Q & A Flow.)
3. (At the fox) - Prepositional phrase.
4. Period, statement, declarative sentence. (Write a “D” at the end of the sentence.)
5. Go back to the verb - divide the complete subject from the complete predicate. (Put a slash in front of the verb. See the example below for a classified sentence.)
   - A Adj SN V Adv P A OP
6. SN V The big dog / barked loudly (at the fox). D
   - P1

The Question & Answer Flow Section

There are three additional parts to be added to the Question and Answer Flow. These parts are explained below.

1. Subject Noun Verb Pattern 1 Check  (Write SN V P1 in the blank beside the sentence. Be sure to say check. You will use the check to check for any new parts that are added to the question and answer flow.)
2. Period, statement, declarative sentence (Write a D at the end of the sentence.)
3. Go back to the verb - divide the complete subject from the complete predicate.  
(As you say divide, put a slash mark before your verb.)

Note: Your sentence should look like this:

<table>
<thead>
<tr>
<th></th>
<th>A</th>
<th>Adj</th>
<th>SN</th>
<th>V</th>
<th>Adv</th>
</tr>

The spotted toad / hopped quickly.  D

Now I will explain each of these parts, one at a time.  For the first new part, we added the words Subject Noun Verb Pattern 1 Check.  Listen to the definition for a Pattern 1 sentence. The pattern of a sentence is the order of the main parts of the sentence.  Pattern 1 has only two main parts: the subject and the verb.  Adjectives and adverbs add information to sentences, but they are not part of a sentence pattern.  A Pattern 1 sentence is labeled SN V P1 (Subject Noun, Verb, Pattern 1).

When you say Subject Noun Verb Pattern 1 Check in the question and answer flow, you are classifying the pattern of the sentence.  The pattern of a sentence is the order of its main parts.  The subject and verb are the main parts of a Pattern 1 sentence.

Remember, adjectives and adverbs are extra words that are not considered essential parts of a sentence pattern because they are used freely with all sentence patterns.  To identify all Pattern 1 sentences, you will write SN V P1 on the line in front of any Pattern 1 sentence.

When you say period, statement, declarative sentence, you are classifying the kind of sentence.  To identify the sentence as a declarative sentence, you will write a D after the period.

When you say Go back to the verb - divide the complete subject from the complete predicate, you are identifying all the subject parts and all the predicate parts.
The Question & Answer Flow Section

I will now give you more information about the complete subject and the complete predicate. Listen carefully. The complete subject is the subject and all the words that modify the subject. The complete subject usually starts at the beginning of the sentence and includes every word up to the verb of the sentence. A vertical line in front of the verb shows that the subject parts are divided from the predicate parts in the sentence.

The complete predicate is the verb and all the words that modify the verb. The complete predicate usually starts with the verb and includes every word after the verb. A vertical line in front of the verb shows that the predicate parts are divided from the subject parts in the sentence.

The Question & Answer Flow Section
Introducing the Preposition and the Object of the Preposition

We are ready to start prepositions! The preposition jingle has already told you a lot about prepositions, but now we are going to learn even more. A **preposition** is a joining word. It joins or connects a noun to the rest of the sentence. To know whether a word is a preposition, say the preposition and ask *What* or *Whom*. If the answer is a noun, then the word is a preposition. Prepositions are labeled with a *P*.

An **object of the preposition** is a noun after the preposition in a sentence. A noun that is an object of the preposition is labeled with an *OP*.

It is important for you to know the difference between prepositions and adverbs. Look at Reference 15 (on page 106 of the student workbook) as I explain how you can tell the difference between prepositions and adverbs.

A word can be a **preposition** or an **adverb**, depending on how it is used in a sentence. For example, the word *down* can be an adverb or a preposition. How do you decide if the word *down* is an adverb or a preposition? If *down* is used alone, with no noun after it, it is an adverb. If *down* has a noun after it that answers the question *what* or *whom*, then *down* is a preposition, and the noun after *down* is an object of the preposition. *(Have students follow along as you now read and discuss the information in the reference box below.)*

<table>
<thead>
<tr>
<th>Reference 15: Knowing the Difference Between Prepositions and Adverbs</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Adv</strong></td>
</tr>
<tr>
<td>In the example sentence, <em>Mark jumped down</em>, the word <em>down</em> is an adverb because it does not have a noun after it.</td>
</tr>
<tr>
<td>In the example sentence, <em>Mark jumped down the steps</em>, the word <em>down</em> is a preposition because it has the noun <em>steps</em> (the object of the preposition) after it. To find the preposition and object of the preposition in the question and answer flow, say: <em>down</em> - <strong>P</strong> (Say: <em>down</em>- preposition) <em>down what? steps - OP</em> (Say: <em>down what? steps - object of the preposition)</em></td>
</tr>
</tbody>
</table>

A **prepositional phrase** starts with the preposition and ends with the object of the preposition. It includes any modifiers between the preposition and object of the preposition. A prepositional phrase adds meaning to a sentence and can be located anywhere in the sentence.

**Extra Information:** The whole prepositional phrase can modify like a one-word adverb: Stepped where? (*down the steps*) - adverbial phrase. *(This is just extra information that some students might want to know.)*

**Prepositional phrases** are identified in the question and answer flow after you say the word *check*. This time when you say *check*, you are looking for prepositional phrases in the sentence. If you find a prepositional phrase, you will read the whole prepositional phrase and put parentheses around it.

We will learn how to classify a preposition and an object of the preposition by reciting the Question and Answer Flows for the first group of sentences. I will lead you as we say the questions and answers together. Remember, it is very important that you say the questions with me as well as the answers. Begin.

**Note:** Since the verb usually begins the predicate, an adverb exception occurs when you have an adverb immediately before the verb that starts the predicate. To add the adverb exception to the question and answer flow, we will say, “Is there an adverb exception?” If there is not an adverb before the verb, you say, “No.” If there is an adverb before the verb, we will say, “Yes - change the line.” To show the adverb exception, simply erase your slash mark and put it in front of the adverb that is immediately before the verb.  

**Go over the information in Reference 11 with students.**

\text{SN} & \quad \text{V} \\
\text{P1} & \\
\end{align*}
\]

The eleven football players / turned quickly around (during practice.)  

**D**  

Now we are going to add two new parts to the question and answer flow. These new parts are questions that will remind us to check for two additional things: an adverb exception and natural or inverted word order.

**Adverb Exception:** Since the verb usually begins the predicate, an adverb exception occurs when you have an adverb immediately before the verb that starts the predicate. To add the adverb exception to the question and answer flow, we will say, “Is there an adverb exception?” If there is not an adverb before the verb, you say, “No.” If there is an adverb before the verb, we will say, “Yes - change the line.” To show the adverb exception, simply erase your slash mark and put it in front of the adverb that is immediately before the verb.  

(Reference 11)
The Question & Answer Flow Section

Reference 11: Adverb Exception Example

From: (The scorpions swiftly / retreated.) To show the adverb exception: (The scorpions / swiftly retreated.)

To add adverb exception to the question and answer flow, say, “Is there an adverb exception?” If there is not an adverb before the verb you say, “No.” If there is an adverb before the verb, you say, “Yes - change the line.”

Question and Answer Flow for Sentence 1: The frightened woman frantically screamed for the police!

1. Who screamed for the police? woman – SN 9. SN V P1 Check
2. What is being said about woman? woman screamed – V 10. (For the police) – Prepositional phrase
3. For – P 11. Exclamation point, strong feeling, E
4. For whom? police – OP 12. Go back to the verb – divide the complete subject from the complete predicate.
5. The – A 13. Is there an adverb exception? Yes - change the line
8. The - A

Classified Sentence: SN V P1

The frightened woman / frantically screamed (for the police!) E

Natural and Inverted Word Order: Look at Reference 12 as I explain a natural or inverted word order. A Natural Order sentence has all subject parts first and all predicate parts after the verb. Inverted Order means that a sentence has predicate words in the complete subject. When a word is located in the complete subject but modifies or is part of the verb, it is a predicate word in the complete subject. A sentence with inverted order has one of these predicate words at the beginning of the complete subject: an adverb, a helping verb, or a prepositional phrase. Writers use inverted order to give some variety to their sentences. The examples in your reference box will help you remember the three ways to use inverted order in your sentences.

Reference 12: Natural and Inverted Word Order Examples

1. An adverb at the beginning of the sentence will modify the verb.
   (Example: Yesterday we / went to the operetta.) (We / went to the operetta yesterday.)
2. A helping verb at the beginning of a sentence will always be part of the verb.
   (Example: Are we / going to the operetta?) (We / are going to the operetta.)
3. A prepositional phrase at the beginning of a sentence will modify the verb.
   (Example: After the operetta we / ate pizza and lasagna.) (We / ate pizza and lasagna after the operetta.)

To add inverted order to the question and answer flow, say, “Is this sentence in a natural or inverted order?” If there are no predicate words in the complete subject, then you say, “Natural - No change.” If there are predicate words at the beginning of the complete subject, then you say, “Inverted - Underline the subject parts once and the predicate parts twice.” To show the inverted order, draw one line under the subject parts and two lines under the predicate parts.

Question and Answer Flow for Sentence 2: During the performance the two tawny lions roared angrily.

The Practice and Improved Sentence Section

Write the title Practice Sentence on the top line of your notebook paper. Now copy these labels across the page: **A Adj SN V Adv P Adj OP**. Make sure you leave plenty of room for the words that you will write under the labels. Now I will lead you through the process of using the labels to write a practice sentence.

1. Go to the **SN** label for the subject noun. Think of a noun you want to use as your subject. Write the noun you have chosen on the line under the **SN** label.

2. Go to the **V** label for verb. Think of a verb that tells what your subject does. Make sure that your verb makes sense with the subject noun. Write the verb you have chosen on the line under the **V** label.

3. Go to the **Adv** label for the adverb. Immediately go to the verb in your sentence and ask an adverb question. What are the adverb questions? (how, when, where) Choose one adverb question to ask and write your adverb answer under the **Adv** label.

4. Go to the **P** label for the preposition. Think of a preposition that tells something about your verb. You must be careful to choose a preposition that makes sense with the noun you will choose for the object of the preposition in your next step. Write the word you have chosen for a preposition under the **P** label.

5. Now go to the **OP** label for object of the preposition. If you like the noun you thought of while thinking of a preposition, write it down under the **OP** label. If you prefer, think of another noun by asking what or whom after your preposition. Check to make sure the preposition and object of the preposition make sense together and also make sense with the rest of the sentence. Remember, the object of the preposition will always answer the question what or whom after the preposition. Write the word you have chosen for the object of the preposition under the **OP** label.

6. Go to the **Adj** label in front of the object of the preposition noun for an adjective. Then go to the object of the preposition in the sentence and ask an adjective question. What are the three adjective questions? (what kind, which one, how many) Think of one adjective that answers the adjective questions you asked and which makes sense in the sentence. Raise your hand to tell me your adjectives. (Allow time for a few students’ responses.) Now I will choose one adjective. Let’s write this adjective under the **Adj** label. (Write the adjective choice on the board and have students write it on their papers.)

7. Go to the **Adj** label in front of the subject noun for an adjective. Then go to the subject noun in the sentence and ask an adjective question. What are the three adjective questions? (what kind, which one, how many) Think of one adjective that answers the adjective questions you asked and which makes sense in the sentence. Raise your hand to tell me your adjectives. (Allow time for a few students’ responses.) Now I will choose one adjective. Let’s write this adjective under the **Adj** label. (Write the adjective choice on the board and have students write it on their papers.)
8. Go to the A label for the article adjective in the subject area. What are the three article adjectives again? (a, an, and the) Now you will choose one of these article adjectives that makes the best sense in your sentence. Write the article adjective you have chosen under the A label.

9. Finally, check your Practice Sentence to make sure it has the necessary parts to be a complete sentence. What are the five parts of a complete sentence? (subject, verb, complete sense, capital letter, and an end mark) Does your Practice Sentence have the five parts of a complete sentence? (Allow time for students to read over their sentences and to make any corrections they need to make.)

Now under your practice sentence, write the title Improved Sentence on another line. To improve your practice sentence, you will make one synonym change, one antonym change, and your choice of a complete word change or another synonym or antonym change.

Since it is harder to find words that can be changed to an antonym, it is usually wise to go through your sentence to find an antonym change first. Then look through your sentence again to find words that can be improved with synonyms. Finally, make a decision about whether your last change will be a complete word change, another synonym change, or another antonym change.

Now take time to write an improved sentence. If you need help writing the improved sentence, let me know. (Always encourage students to use a thesaurus, synonym-antonym book, or a dictionary to help them develop an interesting and improved writing vocabulary.)

General Q & A Flow Guide #2 for Patterns 2-5

This is a general question and answer flow guide that will help you remember the order of most of the questions you will use to classify Patterns 2-5.

**Pattern 2: To find the direct object**

1. Read the sentence: *Billy kicked the football.*
2. First, find the subject and verb by following the steps in Guide #1.
3. To find the direct object, say the subject and verb and ask the question “what.”
   
   (Ask “whom” if the direct object is a person.) *Billy kicked what? Football*
4. Since a direct object cannot mean the same thing as the subject, you say:  
   **Verify the noun. Does football mean the same thing as Billy? No. Football - DO**  
   (Say “direct object” not “DO.”)
5. Label the direct object with a “DO” abbreviation.
6. After the direct object is labeled, put a “t” on the verb (V-t) to indicate that it is a transitive verb.
   A transitive verb is an action verb that has a direct object in the predicate.
7. Shurley Method pattern: SN V-t DO P2. Regular pattern: N V N P2
8. Classify the rest of the sentence by following the steps in Guide #1.

**Pattern 3: To find the indirect object**

1. Read the sentence: *Billy kicked me the football.*
2. First, find the subject and verb by following the steps in Guide #1.
3. Next, find the direct object by following the steps above for the direct object.
4. To find the indirect object, say the subject, verb, and direct object and ask the question “to whom” or “for whom.” (Ask “what” if the indirect object is not a person.)
   *Billy kicked the football to whom? Me - IO  (Say “indirect object” not “IO.”)*
5. Label the indirect object with an “IO” abbreviation.
7. Notice that the indirect object always comes between a verb-transitive and the direct object.
8. Classify the rest of the sentence by following the steps in Guide #1.

**Pattern 4: To find the predicate noun**

1. Read the sentence: *That boy is my brother.*
2. First, find the subject and verb by following the steps in Guide #1.
3. To find the predicate noun, say the subject and verb and ask the question “what.”
   (Ask “who” if the predicate noun is a person.) *Boy is who? brother*
4. Since a predicate noun must mean the same thing as the subject, you say:
   **Verify the noun. Does brother mean the same thing as boy? Yes. Brother - PrN.**  
   (Say “predicate noun” not “PrN.”)
5. Label the predicate noun with a “PrN” abbreviation.
6. After the predicate noun is labeled, put an “L” on the verb (LV) to indicate that it is a linking verb.
   A linking verb is a state of being verb (not action) that has a predicate noun in the predicate.
7. Shurley Method pattern: SN LV PrN P4. Regular pattern: N LV N P4
8. Classify the rest of the sentence by following the steps in Guide #1.

**Pattern 5: To find the predicate adjective**

1. Read the sentence: *This cake is delicious.*
2. First, find the subject and verb by following the steps in Guide #1.
3. To find the predicate adjective, say the subject and verb and ask the question “what.” *Cake is what? delicious*
4. Since a predicate adjective is an adjective in the predicate that always tells what kind of subject, you say:
   **Verify the adjective. What kind of cake? Delicious - PA**  
   (Say “predicate adjective” not “PA.”)
5. Label the predicate adjective with a “PA” abbreviation.
6. After the predicate adjective is labeled, put an “L” on the verb (LV) to indicate that it is a linking verb.
   A linking verb is a state of being verb (not action) that has a predicate adjective in the predicate.
8. Classify the rest of the sentence by following the steps in Guide #1.
The Question & Answer Flow Section

## Pattern 2 Sentence

**Question and Answer Flow for Sentence 1: The children drew pictures.**

1. Who drew pictures? children – SN
2. What is being said about children? children drew – V
3. Children drew what? pictures – verify the noun

**Note:** Always ask the WHAT question immediately after finding the SN and V to get the DO. “Verify the noun” is a check to make sure the second noun does not mean the same thing as the subject noun. If it does not, then the second noun is a direct object.

4. Do pictures mean the same thing as children? No
5. Pictures – DO
6. Drew – V-t

**Note:** Mark the verb with a V until the DO has been identified. After you verify that the noun is a direct object, go back and mark your verb as transitive (put the “t” on the verb). Always get the core, SN V-t DO, before you classify the rest of the sentence.

7. The – A
8. SN V-t DO P2 Check

**Note:** Check for the “t” on the verb.
9. Verb-transitive – Check again.

**Note:** No prepositional phrases.
10. Period, statement, D
11. Go back to the verb – divide the complete subject from the complete predicate.

12. Is there an adverb exception? No.
13. Is this sentence in a natural or inverted order? Natural – no change.

**Classified Sentence:**

\[
\begin{array}{c|c|c|c}
\text{SN} & \text{V-t} & \text{DO} \\
\text{The children} & \text{drew pictures.} & \text{D}
\end{array}
\]

## Pattern 3 Sentence

**Question and Answer Flow for Sentence 2: The boy gave me his frog.**

1. Who gave me his frog? boy – SN
2. What is being said about boy? boy gave – V
3. Boy gave what? frog – verify the noun
4. Does frog mean the same thing as boy? No
5. Frog – DO
6. Gave – V-t
7. Boy gave frog to whom? me – IO
8. Whose frog? his – PPA
9. The – A

**Classified Sentence:**

\[
\begin{array}{c|c|c|c|c|c}
\text{SN} & \text{V-t} & \text{IO} & \text{PPA} & \text{DO} \\
\text{The boy} & \text{gave me his frog.} & \text{D}

\]

## Pattern 4 Sentence

**Question and Answer Flow for Sentence 3: A bear is an animal.**

1. What is an animal? bear – SN
2. What is being said about bear? bear is – V
3. Bear is what? animal – verify the noun
4. Does animal mean the same thing as bear? Yes
5. Animal – PrN
6. Is – LV
7. An – A
8. A – A

**Classified Sentence:**

\[
\begin{array}{c|c|c|c}
\text{SN} & \text{LV} & \text{A} & \text{PrN} \\
\text{A bear is an animal.} & \text{D}
\end{array}
\]

## Pattern 5 Sentence

**Question and Answer Flow for Sentence 4: A wild rose is very beautiful.**

1. What is very beautiful? rose – SN
2. What is being said about rose? rose is – V
3. Rose is what? beautiful – verify the adjective
4. What kind of rose? beautiful – PA
5. Is – LV
6. How beautiful? very – Adv
7. What kind of rose? wild – Adj
8. A – A

**Classified Sentence:**

\[
\begin{array}{c|c|c|c|c|c}
\text{SN} & \text{LV} & \text{Adv} & \text{PA} \\
\text{A wild rose is very beautiful.} & \text{D}
\end{array}
